

Donning PPE: COVID patients with N95 mask

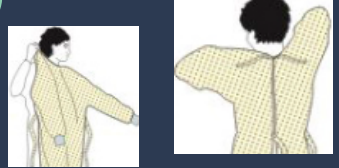

Putting On Personal Protective Equipment

1 Hand Hygiene

Wash your hands with soap and water OR use an alcohol-based hand sanitizer to clean your hands.

2 Gown

Gown should cover neck, knees, and wrists. Tie the gown at the back of the neck and back of the waist.

3 N95 Respirator

A - Pre-stretch the top and bottom straps.
B - Cup the N95 respirator in your hand.

C - Position N95 under your chin with nose piece up and secure elastic band around your head.
D - Mold nose piece firmly to bridge of nose.
E - Fit check the N95

4 Eye Protection / Face Shields

Place face shield or goggles over face and eyes and adjust to fit.

5 Repeat Hand Sanitizer

Use an alcohol-based hand sanitizer to clean your hands.

6 Gloves

Pull gloves over the cuffs of the gown.
